QUALITY YOU CAN TRUST

ABOUT US

All ActiveYards products are made by Barrette Outdoor Living®, a proud American manufacturer with 14 factories throughout North America. With nearly 50 years of industry experience, our products are meticulously engineered and designed for beauty, flexibility and ease of installation. Our vinyl fencing is made, and our aluminum fencing is finished and assembled, in America by American workers. We employ top-notch engineers and machinists, scientists, quality testing and research specialists along with our outstanding in-house customer service, sales and marketing teams all of whom are part of our American workforce.

OUR MATERIALS, PROCESSES, INNOVATION AND TESTING SET US APART

Our vinyl fencing is made using proprietary raw material blends. Because of this, we know exactly what goes into our manufacturing processes and can ensure consistent, high-quality product. Our aluminum fencing features a powder coating finish that leads the industry in thickness and performs at three times the industry standard in salt spray testing. We have a long history of product innovation and hold more than 70 patents. Our product design and ingenuities ensure both our vinyl and aluminum fencing stays on trend and performs above expectations. Our state-of-the-art quality assurance processes utilize extensive internal and third-party laboratory testing, well exceeding other manufacturers, to ensure all our fencing products perform flawlessly for years to come.

ENVIRONMENTAL STEWARDSHIP

Barrette Outdoor Living believes in building for the future and is strongly committed to being an environmental steward. Through the products we produce and the sustainability practices we follow, every day we work to reduce our carbon footprint and move towards being as “waste neutral” as possible.

FENCING OVERVIEW

WIND CODE APPROVED

Standard fences can bend or buckle when the wind blows, creating large gaps. Our GlideLock pickets lock firmly together for a tighter, gap free fit, standing up better to wind pressure. Some styles require aluminum inserts to meet wind code requirements. Please contact your ActiveYards representative for more details.

POOL CODE APPROVED

Certain styles and heights of ActiveYards Vinyl Fencing are pool code approved at the national level (as indicated with icon throughout catalog). Please note that codes not only vary by state, but also by locality. Be sure to check your local pool code requirements before ordering. For more information about National pool code panel and gate specifications, see page 81.

HARMONY EXCLUSIVELY

The Dogwood and Arrowwood styles of ActiveYards vinyl fencing feature the exclusive Harmony option — giving you the ability to mix and match posts and rail colors with different color of infill boards to create a striking two-tone combination.

COMMON POSTS

Many ActiveYards vinyl fence panels utilize posts that are the same size and use the same routing. All post descriptions contain a letter (or combination of letters) in parentheses to indicate their consistent application across panel styles. For example, in the description 5" x 5" x 84" Line Post (B), the (B) indicates the type of post that is used. Other fence styles that also utilize a (B) post will have the same reference in their post descriptions.

QUICKSHIP

Many ActiveYards vinyl fence panels and associated products are available via QuickShip (10-day shipping). When a QuickShip icon is present on a product page in this catalog (or **QS** is shown by a page number in the Table of Contents) it indicates that the following items are available via QuickShip:

FENCING USER GUIDE & TERMS

HAVEN SERIES

Our Haven Series has got it all — our patented ingenuities (see page 5), decorative reinforced rails along with more color and size options. These panels are as strong and sturdy as they come and sacrifice nothing when it comes to style.

- Haven series fence panels are available in 8' widths.
- Privacy panels feature 2" x 7" decorative rails and 6" GlideLock boards.
- Rail and picket size on semi-privacy, picket and ranch rail panels vary by style.

HOME SERIES

Our Home Series utilizes our most popular styles and colors for any fencing solution. The Home Series gives you some of the benefits of the Haven Series with less color and size options — exchanging a little added flair for affordability — without compromising on strength and function.

- Home Series fence panels are available in 8' widths.
- Privacy panels feature 1¾" x 7" barbed rails and 6" GlideLock boards.

WIND CODE APPROVED

- Stamped engineered drawings can be obtained through your ActiveYards representative.

POOL CODE APPROVED

Certain styles and heights of ActiveYards Vinyl Fencing are pool code approved at the national level (as indicated with icon throughout catalog). Please note that codes not only vary by state, but also by locality. Be sure to check your local pool code requirements before ordering.

National Fence Panel Specifications:

- Fence panel must be at least 48" tall.
- Distance from the top of the bottom rail to the top of the next highest rail must be at least 45".
- Spacing between pickets must be less than 4".
- Space from the bottom of the bottom rail to the ground must be less than 4".

National Gate Specifications:

- Must have self-closing hinges.
- Must have self-closing latches.
- Need to open out (away from pool area)
- Opening mechanism of the latch must be at least 54" above the ground.
- Must not use a cross brace on gates.

ORDERING

- Please consider using the pages directly from this catalog for ordering purposes. ActiveYards Customer Service will respond with a confirmation to verify the order and request a final signature.

ORDER PROCESS

- All orders must be submitted in writing. We ask that you use one of the available ActiveYards forms. If not using one of the available forms, orders must contain material numbers as well as descriptions. Any orders placed without the requested information will be sent back to the Dealer to resend. Please send orders via fax to 440-239-2607 or email to your customer service representative. Orders will not be taken over the phone.
- Upon receipt of an order, a confirmation will be sent back to you via fax or e-mail, either the same or following business day.

- Order will be released and lead time will begin upon your receipt of the order confirmation and credit approval. Any changes to an existing order will reset the lead time for that order. Please note that this will not apply to custom aluminum gate orders. You will need to review and sign both the order confirmation and the gate drawing and return it to your customer service representative.
- Dealer is responsible for the content and accuracy of all order confirmations including product, pricing, payment terms, expected ship date, etc.
- To check order status please provide ActiveYards order number, purchase order, or customer account number to your customer service representative.
- Orders are shipped prepaid, unless otherwise agreed in writing.

PAYMENT METHODS & CREDIT

Sales Tax

ActiveYards will charge state sales tax to all customers unless a current resale certificate is on file. ActiveYards will require a certificate for each state in which Dealer does business.

TERMS

- Payment terms will be stated on each order confirmation and invoice.
- ActiveYards reserves the right to withdraw or change amount of credit, require partial or full payment in advance and to change the terms of payment with respect to future orders.
- The calculations for discount are predicated on the date the customer's payment is received by ActiveYards.

within 10 calendar days and can be ordered in full unit or individually.

CARE AND MAINTENANCE

Vinyl Fence Cleaning

- Most dirt can be washed off with a mild soap and water solution.
- Heavier stains can be cleaned with any non-toxic household cleaner.

How Do I Clean My Vinyl Fence?

- On occasion, you may want to spray your fence with a garden hose. This will remove grass clippings, dirt and fertilizer chemicals and keep it looking as new as possible.
- To remove minor stains, use a non-abrasive liquid cleaner.
- For removal of major stains, try one of the following cleaning agents:
 - Simple Green®
 - Mr Clean® Magic Eraser
 - Mineral Spirits
 - Trichloroethylene
 - CLR® (Calcium, Lime and Rust Cleaner)
 - Vinegar

Follow the manufacturer's directions.

Note: Goof Off® is not recommended to remove stains.

MAINTENANCE TIPS

To maximize the life of your fence address these areas:

- Adjust the gate every spring. As a reminder, gate adjustments and leveling are normal care and maintenance items that the homeowner is responsible for.
- Oil the gate hinges and tighten the screws once a year.
- Do not let the gate swing in the wind. Keep it secured.
- Deter children from swinging on the gate.
- Re-tamp and realign the loose posts.
- Do not stack or mount any objects or material near or on your fence.

CAMBIUM CARE GUIDE

- Cambium fence products must always be wrapped tightly and protected from the weather with white poly wrapping. This includes job site layout.
- The side U channels for Cambium fence privacy styles must be fastened to the posts to strengthen the pickets and protect from possible bowing.
- Inspect components prior to installation for possible white spots that may have resulted from condensation in packaging.
- FAILURE TO DO ABOVE 3 POINTS MAY VOID PRODUCT WARRANTY.
